Benchmark table (O)
dirty + reference table
public, well-known entities
a city: birminghxm
paired renaming or
error-recipe transfer
table construction
question sequence
Fresh (F)
real records outside the benchmark
transferred errors: dxthan
Words surrogate (W)
same rows and error cells
names from English words: xill pine
Syllable surrogate (S)
same rows and error cells
names from syllables: hepmxrmxr
Acceptance checks
error masks and recipes;
kinds, strength, formats;
names and leakage checks;
byte-identical rebuilds;
construction seed ranges
Recovery evidence
same method, prompt and information
four-condition contrasts
independent row-continuation probe
Assigned values
separate knowledge-conflict test
familiar facts vs table-value priority
Repair credit
separate Rayyan field checks
reference conversions vs external matches
